Subject: Report on Information Disclosure and Solutions Regarding Securities Marked “CF” Sign via
Public Presentation

Attention: President
The Stock Exchange of Thailand

Amarin Corporation Public Company Limited (the “Company”) held a Public Presentation (C-Sign Public Presentation) on 22 August 2025, to inform the investors and relevant stakeholders regarding the Company’s securities being marked with a “CF” sign (Non-Compliance Free Float). As of the record date for determining the shareholders entitled to attend the 2025 Annual General Meeting of Shareholders (XM), which was 20 March 2025, the Company had 1,542 minority shareholders. However, the proportion of minority shareholders was 9.41% of the paid-up capital. This does not comply with the Stock Exchange of Thailand (“SET”) regulation, which stipulates that a listed company must have at least 150 minority shareholders collectively holding no less than 15% of the paid-up capital. In this regard, the Company would like to summarize the remedial actions as follows;

Progress and Guidelines for Remedial Actions

As of the record date for determining the shareholder registered (XO) on 30 June 2025, there were 1,515 minority shareholders, a decrease of 27 shareholders. While this number still complies with the criteria in terms of number of shareholders, the proportion of minority shareholders was 9.41% of the paid-up capital, which does not meet the minimum criteria.

The Company acknowledges the non-compliance issue and is fully committed to taking appropriate actions to comply with the SET’s requirements, particularly in maintaining the proportion of minority shareholders at no less than 15% of the paid-up capital. At present, the Company is in the process of studying suitable solutions and is in discussions with major shareholders to explore restructuring of the shareholding structure and identify suitable methods to increase the proportion of minority shareholders (Free Float) in compliance with SET criteria within the prescribed timeframe.

However, the shareholding restructuring plan will need to take into consideration the following key factors:

1. Business restructuring to align with the Company's long-term strategic direction.
2. Investment opportunities in related or new businesses, which are currently under feasibility study and evaluation.

Timeline for Resolution

The Company intends to complete the remedial actions within the timeframe prescribed by the SET, calculated from the date the "CF" marking was assigned to the Company's securities. The Company is committed to addressing this matter with due diligence and will provide quarterly progress updates to shareholders and investors until full the matter is fully resolved.

Please be informed accordingly.

Sincerely yours,

Mr. Amorn Ungsakulpreecha

Chief Financial Officer
